

Augmented Reality: **HOW CAR T-CELL THERAPY WORKS**

Use your smartphone, tablet, or other handheld device to see the CAR T-cell therapy process in action.

Using your smartphone, tablet, or other handheld device, download our interactive mobile app,

HOW CAR T-CELL THERAPY WORKS

to learn about the CAR T-cell therapy process. Our 3D animation shows T cells and CAR T cells traveling through the bloodstream to find and eliminate blood cancer cells.

Download the app using these QR codes or visit www.LLS.org/VirtualCARProcess.

For more information about CAR T-cell therapy, visit www.LLS.org/CART.
